Completely Cured of Catarrh by ! Peruna-General Health Also Improved.

Miss Ida Murray writes from 237 Polk street. Minneapolis, Minn., as follows:

"I had chronic catarrh of the head. which made the slightest cold so much worse. I am completely cured of my catarrh after four menths' faithful use of Peruna, and my general health is greatly improved. I always speak a good word for Peruna."—Ida Murray.

Miss Anna Bryan, a favorite cousin of William Jennings Bryan, writes from 1459 Florida avenue, Washington, D. C.:
"At the solicitation of a friend

began some weeks ago to take your Peruna, and I now teel like a new person. I take pleasure in recommending it to all who want a good tonic, and a permanent cure for catarrh."—Anna

Catarrh Generally Thought to be a Disease of the Head Only.

Wherever there is a mucous membrane there catarrh may exist.

The only reason that catarrh is more frequent in the passages of the nose and throat is because these passages are more exposed to cold than the other portions of the mucous membrane. But one is liable to have entarrh of the lungs, or kidneys, or stomach, or liver, or bowels, and especially the bladder and other pelvic organs.

Peruna is a specific in cases of female weakness or pelvic catarrh and is heartlly indorsed by all the women.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be

pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

DID NOT PROSECUTE DELABAR. Charge of Selling Liquor Without License Not Pushed.

August Delabar, the salconkeeper, was called in the Court of Criminal Correction yesterday morning to answer the charge of selling liquor without a license. As Delabar has closed his saloon, Prosecuting Attorney Clover entered a noile prosequi in the case. The charge grew out of Delabar's refusal to comply with Excise Commissioner Selbert's order to close all saloons between the hours of 1 and 5 o'clock in the morning. Selbert revoked Delabar's license and the police procured a warrant against him for selling liquor without a license. Delabar has closed his saloon and is fighting the case in the civil courts.

CRIMES COMMITTED BY FILIPINO BANDITS.

Murder, Arson, Assassination, Criminal Assault, Kidnaping and Burglary Included in the Methods of the Oath-Bound Societies That Have Been Plundering the Philippine Provinces-Atrocities Officially Reported.

Washington, June 17.—A Philippine mail lean troops, were set upon, one of their brings to the War Department the records in eleven cases wherein Filipines were tried by military commissions on charges including murder, criminal assault, kidnaping, assault and battery, burglary and violation of the rules of war.

A native named Miranda was tried on four charges of the pulse of war.

sault and battery, burzlary and violation of the rules of war.

An especially notable case arose out of the operations of a famous outhbound hand of Filipinos, called the Society of the Sanciathanas. The principal office of this society, next to a triumvirate of chiefs, are a chief executioner and assistants, and a requisite number of gravedigaers, who participate in the self-appointed work of the band.

Reveled in Assansiantion.

The leaders select their victim, capture and carry him away in the night to a secret rendezvous on a sandy beach, covered with very tall grass, where the diggers already have prepared the grave. Here, in the presence of the assembled band, helpless men and women from time to time have been stabled to death and toesed into the graves. The members of the band then disperse and trust to the rise and fall of the near-by waters to hide the evidence of their ghastly work. Ten members of the band, including two of the chiefs, were tried before a military commission, and eight of them were sentenced to be hanged. In approving the tary commission, and eight of them were sentenced to be hanged. In approving the

"To the reviewing authority, it is evident that there can be no hope of peace for the Filipino people, nor security for their lives and property, until they shall learn to unite against all bands of murderers and assaming under whatever name they shall secure and come to the assistance of shall assume, and come to the assistance of the officers of the law in their determination to bring them all to jus

Beheaded Their Victims. In another case an armed band of about twenty-five Filipinos carried away nine of the inhabitants of the Barrio of Cassantulairan and by repeated blows from the butts of their rifles drove them to the presidencia of Cabaruan. Here all hands drank freely of vino, and the prisoners were made drunk. Then, according to the testimony of two Then, according to the testimony of two of the prisoners who escaped, the other seven were led off in the direction of a grove of trees, where two days later their beheaded boiles were discovered. The members of the hand who were captured received series of the hand who were captured received sentences of death in some cases and im-prisonment at hard labor for varying terms in others.

Four native policemen, who had been sent to gather wood for a detachment of Amer-

arm. A member of the band which attacked them was sentenced to twenty years imprisonment.

Run the Gamut of Crime.

A native named Miranda was tried on four charges. A band under his leadership ambushed and killed two native brothers. Later the accused led his band against the country house of a native, set it after, looted its contents and carried off into the fields three daughters of the owner, robbing them of their jewelry. Three days later his band attacked the town residence of the same native and thoroughly sacked it. His last crime was the murder of a native named Abelino, who frequented a gambling-house kept by his innamorata, for the sole reason that Abelino had not paid a gambling debt.

Miranda was sentenced to be hanged.

Three natives were thed, charged with the murder of Private Henry F. Shafter, Company L. Seventeenth Infantry. They were sentenced to be hanged, but this was commuted by General Macarthur, in the case of two of them to imprisonment for itemty years.

Bid Not Assimilate Benevolently.

Jose Paligod, the Presidente elect of the pueblo of Tuno, under the system established by the American Government, while exercising the functions of his office, became cognizant of the organization of a band in a neighboring barrio for the purpose of attacking the small garrison of nineteen American soldiers, stationed at Tuno. He traitorously co-operated with the icader of the band, advised him as to the most auspicious time to make an attack, intercepted a messenger sent to warn the Americans and otherwise treacherously abused the trust of his office. He was sent to be confined at hard labor for twenty years.

Robbers and Murders.

Robbers and Murders.

Severino de Guia, Vice Presidente of Baccor, while returning in a carromata (a native vehicle), from Sannicolas, Cavite Province, was set upon by a mative band. They struck the coachman senseless, and carried off the Vice President and his two young sons, who were with nim at the time. Some distance off they shot him dead before the eyes of his children, and fung his body on a pile of rocks. A member of the hand, who was captured, was sentenced to be housed.

Three natives were tried jointly on a charge of being a part of an armed band of robbers, which forced an entrance into the home of a native, robbed it of money, jewelry and other valuables, forced the inmates to come out of the house, bound and maitrested the men and brutally assaulted the women. Two of them were sentenced to imprisonment at hard labor for twenty years, and the other to imprisonment at hard labor for a term of ten years. Robbers and Murders.

In the bone there were still several huge molars, showing that the jaw was that of a man of powerful build. They were loose, but could not be removed by the fingers. No other trace of human bones, except some peculiar colored earth was found, and this was lost during the work of excayating. It could have been that of a giant Mound Builder, a stalwart indian warrior, or an early spanish explorer or adventurer.

The bone and peculiar colored earth were found so very deep below the natural level of the earth that it is believed it was buried there. No trace of metal or anything by which any definite identification of the remains could be arrived at were found at that spot.
